

**dorsët**  
we understand

We understand  
what it takes to be a part of a world apart

We understand  
what it takes to earn the approval of Architects

We understand  
what it takes to gain the confidence of Channel Partners

We understand  
what it takes to achieve the trust of Consumers

So if there is anything that defines us best it's this one thing

### **VISION**

To be an Enterprising, Innovative and profitable global supplier of total access products for homes and Workplaces and to be an employer who understands the importance of creating value for all Stakeholders.

### **Mission**

"Dorset Inside" we shall strive to create Innovation, Value based and Trust worthy products for all establishments to ensure safe and secure living & working environment

We are Dorset, an ISO 9001:2015, EMS 14001:2015, BS OHSAS 18001:2007 organization with over two decades of experience as a reputed manufacturer of architectural hardware & provider of high security locking solutions. We combine new age aesthetics with cutting edgem technology. The result is a range of path breaking products that redefine functionality, reliability and durability. Our collection includes door handles, door locks, security systems, Digital Locks, door control systems, glass hardware, accessories and electronic safes covering all sectors including homes, offices, establishments & industrial facilities. Besides adding new segments to our existing range we are in the process of expanding our international presence and further enhancing our quality standards by equipping ourselves with the powers of Automation, Emerging Technologies backed by a full-fledged research unit comprising four independent R & D cells dedicated to ushering in tomorrow, today. At the heart of it all is our understanding of the evolving technological scenario and changing consumer needs. We understand that in order to stay ahead we have to keep innovating to keep delighting our customers.

# profile

**Our technical process and advanced machinery are the key factors of our innovative drive as we continue to pioneer the way we offer solutions, in the way we deliver value, and in the way we maintain our quality assurance.**

Our Manufacturing Engineering making use of latest TQM techniques like JIT, VSM, SPF, SMED and automation methods acts as a critical linkage between design & manufacturing departments, helping us deliver outstanding products with short turnaround time. The raw materials are sourced only from the best suppliers & they all undergo rigorous testing at the early cycle for impeccable product quality. To carry out various operations on the components, we have world class CNC machines, SPMs and other conventional machines capable of unprecedented detail and accuracy.

strength

We understand the importance of being a responsible corporate citizen. Hence our approach towards sustainable development is at par with the best practices followed in the industry, worldwide. Our environment management team is continuously involved in trying to find new ways to ensure improvement in our environmental performance. We also make sure that we are in compliance with all applicable environmental legislation and regulations. We regularly conduct environmental awareness programme for all our employees. All our manufacturing facilities are geared towards reducing air, water and soil pollution, waste generation and natural resources consumption.
